

Sophos XG Firewall

Unrivalled simplicity, security and insight

Sophos XG Firewall brings a fresh new approach to the way you manage your firewall, respond to threats, and monitor what's happening on your network. Get ready for a whole new level of simplicity, security and insight.

Highlights

- ▶ Next-generation network protection
- ▶ Synchronized Security and Security Heartbeat™
- ▶ Unified user, application and network control
- ▶ Instant visibility
- ▶ Powerful management and scalability

Sophos XG Firewall – The next thing in next-gen

XG Firewall is optimized for today's business, delivering all the protection and insights you need in a single, powerful appliance that's easy to manage.

Advanced protection made simple

Most firewall products make you set up and manage policies across multiple modules or screens. Not Sophos. We provide a powerful unified policy model that allows you to manage, view, filter, and sort all your user, application and network policies on a single screen.

More-in-one protection

You get all the next-gen firewall features you need plus features you can't get anywhere else – including our revolutionary Security Heartbeat™, full web application firewall, and complete email anti-spam, encryption and DLP. No extra hardware. No extra cost. Simply choose what you want to deploy.

On-box reports included as standard

With hundreds of built-in reports you'll know exactly what's happening with your users and your network. You get detailed reports as standard, stored locally with no separate tools required. And our unique User Threat Quotient reports show you which of your users are putting your security at risk.

Potent, powerful ... fast

We've engineered XG Firewall to deliver outstanding performance. Our appliances are built using Intel multi-core technology, solid-state drives, and accelerated in-memory content scanning. In addition Sophos FastPath packet optimization technology ensures you'll always get maximum throughput.

Simply manage multiple firewalls

Sophos Firewall Manager provides a single console for the complete central management of multiple XG Firewalls. And if you also want to consolidate reporting across multiple XG, SG, and Cyberoam appliances then with Sophos iView, you can.

Sophos XG Series Appliances – at a glance

Our XG Series hardware appliances are purpose-built with the latest multi-core Intel technology, generous RAM provisioning, and solid-state storage. Whether you're protecting a small business or a large datacenter, you're getting industry leading performance.

Product Matrix

Model	Revision #	Form Factor	Tech. Specs			Throughput			
			Ports/Slots (Max Ports)	w-model 802.11 wireless	Swappable Components	Firewall (Mbps)	VPN (Mbps)	NGFW (Mbps)	AV-proxy (Mbps)
XG 85(w)	1	desktop	4	a/b/g/n	n/a	2000	200	235	330
XG 105(w)	2	desktop	4	a/b/g/n	n/a	3000	300	270	430
XG 115(w)	2	desktop	4	a/b/g/n	n/a	3,500	350	310	520
XG 125(w)	2	desktop	8	a/b/g/n/ac	n/a	5,000	410	360	590
XG 135(w)	2	desktop	8	a/b/g/n/ac	n/a	7,000	950	880	1,400
XG 210	2	1U	6/1 (14)	n/a	n/a	14,000	1,350	1,700	2,300
XG 230	1	1U	6/1 (14)	n/a	n/a	18,000	1,500	2,420	2,800
